HTVRONT H10 V2 10x10in Heat Press

Built for both big and smaller details, the HTVRONT H10 V2 offers a versatile 25.4 x 25.4 cm press area that's large enough for shirts, yet precise enough for small projects. With real-time pressure display and even heat distribution, it delivers professional results for everyone—from begin-ners to seasoned creators.

25.4 x 25.4 cm Versatile Area

Fast & Even Heating

Real-Time Pressure Display

15-Min Auto Shut-Off

The Crafters' Go-To Tool

There are many heat presses out there, which can make choosing one confusing. What crafters really want is straightforward: a tool that works for all kinds of projects and is safe, simple, and efficient to use. Meet the H10 V2—the capable, all-around press made to do exactly that.

What Frustrates Users

- ❗ Large size are hard to store and move
- ❗ Mini size aren't enough for daily projects
- ❗ Uncontrollable pressure leads to uneven, bumpy results
- ❗ Slow to heat up, slow to work

How H10 V2 Solves It

- ✓ **25.4 x 25.4 cm Plate**
The right size for designs of all scales
- ✓ **Real-Time Pressure Display**
More Precision Control
- ✓ **Pro-Grade Heating Plate**
Warms up 60 s faster than others
- ✓ **Large Digital Screen**
Easy to set, easy to check
- ✓ **15-Min Auto Shut-Off**
For safety and peace of mind

Personal Projects, Anywhere

The 25.4 x 25.4 cm size easily handles most small to medium designs, while its 3.1 kg weight makes it easy to move, store, or take along to markets and beyond.

Real-Time Pressure Display, Precision Control

A large digital screen displays real-time pressure, time and temperature. So you can achieve professional results confidently and avoid mistakes.

Heat Fast, Iron Faster

Reaches over 100 °C in just 1 minute, quickly meet your daily ironing needs.

Note: Example data based on 150 °C, provided by HTVRONT Lab.

Even & Consistent Heat for Pro Results

Ceramic-coated for heat retention—delivering steady, uniform warmth across the entire plate.

Up to 205 °C for More Materials

A wider temperature range that suits almost all popular materials—Heat Transfer Vinyl, Embroidered Patch, DTF Transfer Film, Hotfix Rhinestones, Sublimation Paper, and More.

Dual Handles, Better Press

The dual-handle design lets you distribute force smoothly across the whole pattern. No more uneven edges—just crisp, lasting transfers.

Designed for Your Safety

Auto shut-off with a beep after 15 minutes of inactivity, plus an insulated safety base to guard your table. Extra layers of safety for total peace of mind.

Compact Powerhouse, Unbounded Creation.
