HTVRONT AUTO HEAT PRESS 2—DIGIT

Digital Press, Real Ease

Meet HTVRONT Auto Heat Press 2 - Digit, the more flexible heat press for home and business use. It includes all the fantastic automated features from the first generation, such as the auto-down&up mechanism and slide-out tray for loading & unloading materials easily. No stress on your arms working with it. Program in precise temp, time, and added pressure settings to ensure a worry-free experience and a more professional-looking outcome. Armed with an expanded pressing height of up to 4.5 cm, a 15-minute auto-off safety feature, and thoughtful screen adjustment, HTVRONT Auto Heat Press 2 - Digit can work as your bestie in crafting.

FEATURES

Zero Stress Pressing Down

Auto-pressing with no extra force is definitely a winner. Line up your work, click once, and move them through quickly. Nothing else will get in your efficient way.

Allow for Greater Pressure Control

No more struggle with a lack of sublimation pressure! The new pressure adjustment with an extensive range of 20-80 kg makes it easy peasy to customize for diverse materials and substrates.

Lift Creations to A Next Level

Now, you're ready to go with larger, more varied projects with heights up to 4.5 cm (*without the heat press mat). An improvement in compatible objects empowers greater enjoyment!

A Stands-by-Your-Side Screen

HTVRONT commits to every ergonomic detail for crafters. The inside angle-adjustable screen is built to soothe the discomfort from your daily crafting.

Several More Added Safety Bonus

An easily slide-out drawer design assures you a positive DIY start. Plus a 15-minute shut-off and auto-releasing feature, your security is something we really care about.

QUICK START

1

2

3

4

1. Power on your HTVRONT Auto Heat Press 2 - Digit;
2. Adjust the proper settings to preheat the machine;
3. Place the substrate, material, and PTFE sheet in order;
4. Press the "Start" button to iron automatically.
